Commissioner for Patents

The following allowable claim is suggested for the purpose of an interference:

85. A replication defective recombinant adenovirus comprising:
ITR sequences,
an encapsulation sequence, and
a heterologous DNA sequence;
wherein adenoviral genes that are required for replication consisting of E1 and E4 genes have been rendered non-functional,
wherein the adenovirus is a human group C adenovirus, and optionally wherein adenoviral E3 genes have been rendered non-functional.

The suggested claim must be copied exactly as a new claim or in place of instant claim 45, although other claims may be proposed under 37 CFR 41.202.

Applicant should make the suggested claim in reply to the Office action of 12/23/05. Failure to do so will be considered a disclaimer of the subject matter of this claim under the provisions of 37 CFR 41.202(c).

Claims 45-60, 82, and 83 are considered unpatentable over this suggested claim.

Scott D. Priebe, Ph.D.
Primary Examiner
Art Unit: 1633
